Specifications

Band Support	B1, B2, B3, B4, B5, B8, B12, B13, B14, Multi Carrier & SatCom Capable
Certification	HERO, ATEX, Mil STD 810, FedRAMP Moderate
Battery Type	Li-Ion ATEX Certified
Battery Size/Lifetime	10 year life - 2+ w/Out Ambient Light
BLE + GPS	Indoor BLE, Cloud Location Over Cellular (C-LoC)
Network Protocol	Cell (Multi-Carrier), Private + Ad-Hoc 5G, LPWAN
Environmental Rating	IP67
Temperature Range	-40 to +85C
Dimensions	3 x 3 x 1.5 in
Security	FIPS I40-3 AES 256bit, Multi-Tier Encrypt, FedRAMP Moderate for Simplified ATO

BlackOhm

Through unwavering commitment to design principles, blackohm achieves the highest standards of quality and personalized customization, surpassing all expectations. This device provides a highly robust platform that can withstand intense environmental stress. Outfitted with exceptional fault tolerance complete with redundant radios, GPS systems and environmental sensors while still providing tracking and sensing for mission critical applications.
